

TNB REMACO

TNB REPAIR AND MAINTENANCE SDN.BHD.

(A wholly owned subsidiary of Tenaga Nasional Berhad)

ENVIRONMENTAL POLICY

We are committed to ensure environmental protection and conservation during Repair, Maintenance, Refurbishment, Operation and Management of Power Plants and Related Services to achieve environmental excellence. In carrying out our business, it is our goal to give excellence services with the minimum environmental impacts.

To achieve the above, TNB REMACO shall:-

1. Implement an Environmental Management System that emphasises on environment protection and prevent pollution by continuously :
 - control and prevent air, land, noise and water pollution.
 - implementing waste minimisation and managing scheduled waste.
 - implementing Environmental Management Program (EMPr).
2. Comply with applicable Malaysian statutory acts, regulations and other requirements which related to TNB REMACO's activities.
3. Committed to continual improvement to enhance environmental performance considering life-cycle perspective.
4. Educate every personnel on relevant environmental requirements and conduct the environmental audits and reviews.
5. Communicate this policy to all persons working for or on behalf of TNB REMACO and make available to the public.

Compliance with this policy requires management and employees commitment towards excellent environmental performance.
